

## Statement of Conformance

### Recovery Act (ARRA), Section 1605 (Buy American Provision)

Section 1605 of the American Reinvestment and Recovery Act specifies that, for public building projects which use ARRA funds, all manufactured goods for these projects must be produced in the United States. As a manufacturer of such goods, specifically those designed for building automation and control purposes, Camman Lighting certifies the following:

All of our products are compliant to the Buy American Provision and the American Recovery and Reinvestment Act. All of our products are manufactured and assembled at our facility in Derry, Pennsylvania.

By necessity, a minimal number of parts that are produced in foreign countries are used and fall under the exceptions clauses listed below:

1. Non-availability (not produced or manufactured in sufficient and reasonably available quantities of a satisfactory quality)
2. Unreasonable cost (will increase cost of the overall project by more than 25%)
3. Inconsistent with the public interest

We are happy to provide any additional information you may need to comply with the ARRA program.
